Requested relief

Current implied market value: $320,000
Requested fair market value: $285,000
Requested assessed value (10%): $28,500
Grounds: Lack of uniformity

Owner statement

I request review for lack of uniformity. The selected nearby properties have similar building areas, construction, ages and class codes. Their lower assessments imply lower market values at the residential 10% assessment level. I request the stated value based on the attached comparison grid. This narrative and all data in this example are fictional.

The taxpayer selected the grounds, requested value and supporting evidence. Review and sign all applicable official forms before submitting.
